

ASSESSMENT NOTICE 2008

Representatives of the Board of Assessors are out performing real estate property listings as part of the towns ongoing mandated cyclical valuation program. All data collectors will be wearing a badge introducing them as representatives of the Assessors Office and are registered with the Police Department. They will be measuring the outside of each structure and performing interior inspections to verify pertinent information utilized in the valuation of property for assessment purposes. Most inspections are performed in less than 10 minutes and the Board of Assessors would greatly appreciate your cooperation in this matter. If you have any questions about this process please call the Assessors Office 617-846-2716.
