

Adopt-A-Tree Program 2008

The Adopt-A-Tree Program is designed to allow residents to select and pre-purchase a tree from Northeast Nursery at the **wholesale price** using your city or town account. The selected tree will be cared for in our holding area until the city or town picks up or schedules delivery. Northeast Nursery will hold only those trees that the municipality has agreed in advance to install.

The municipality is responsible for obtaining a dig safe permit and installing the tree at the agreed location. Usually, the homeowner is responsible for the initial care of the tree. Under state law, trees planted within 20 feet of a public roadway can be considered "public area" trees.

On the following page, you will find a list of trees specially selected for urban and suburban adaptability.
