Official Statement Regarding Winthrop Police Department Facebook Page

The Winthrop Police Department is excited to announce its presence on Facebook.

With a click of the “like” button, anyone with a Facebook account can be connected to receive updates on community events, crime notices, wanted and arrested persons, upcoming events and many more items of public interest to the Winthrop community.

“This is a new experience for some of us, and we will be learning as we go,” Winthrop Police Chief Terence M. Delehanty acknowledged. “We see it as an opportunity to open new lines of communication and provide more information to our citizens in a quick timely manner.”

The site was established in early December and located at:

<http://www.facebook.com/Winthroppd>

“This site is one part of our commitment to expand our ability to interact with citizens,” Delehanty said.

The Police Department continues to work on updating its presence on the town’s Web site and is exploring other social media outlets including Twitter.
